## AND BREATHE...

Take five deep breaths

Take a moment to inhale and exhale, mindfully,  
five times to encourage a gentle reset.

Welcome to the moment.

Focusing on our breathing instantly regulates our parasympathetic nervous system, known to improve digestion and help us rest. This encourages calm and clarity and allows us to find our way back to a comfortable equilibrium. Associated with freedom and curiosity, the number five has a special place in many cultures, also representing the five fingers on each hand, the five toes on each foot, and the five senses.

The Conrad Spa 5 Breaths is a grounding and calming process enveloping each treatment delivered within our menu. A simple yet extremely effective opportunity to center and calm your system before relaxing into our exceptional spa experiences.
